THIS SURVEY WAS PERFORMED USING GLOBAL POSITIONING SYSTEM (G.P.S.) PROCEDURES AND EQUIPMENT. THE BEARINGS ARE BASED ON WCS84 DATUM.

NARRATIVE

This survey was performed at the request of the Sharon Stanley in order to mark selected block lines of the plotted streets of the Mt. Home Townsite Survey. The control monuments were found as shown in the county road along the West line of Section 18. Old fence corners throughout the townsite marking original lot and block corners had been found and tied into the survey control. Most of these old fence corners fit the record positions very well as shown on the plot. Based on this control the lot corners indicated were set as noted.

SURVEYOR'S CERTIFICATE

This is to certify that this plot was prepared from the field notes and electronic data collector files of an actual survey made by me, or under my personal supervision, of the parcels of land shown hereon, and that the monuments indicated were found or set during said survey, and that this plot accurately represents said survey to the best of my knowledge.
